

## ABOUT US

**We safely install, perform and manage large commercial projects across the nation!**

SRG Roofing was founded in 2006 for the purpose of providing commercial, industrial and multifamily roofing services in the state of Texas. Today, we have grown into a nationwide company through our dedicated team of roofing experts and personal relationships with our clients. We are committed to safety, service, quality and relationships. We believe that by developing trusted partnerships with clients, following innovative business practices and offering competitive pricing based on project goals, we can help you complete your roofing & waterproofing project of any size.

## OUR SERVICES

**We strive to provide the best service.**

SRG Roofing is committed to meeting your roofing needs including safety, service, and quality. We strive to build long lasting partnerships through our industry expertise while delivering the best possible results.

- ✓ We use GAF, Soprema and Sika Sarnafil materials which have excellent durability and high reflectivity to meet the most rigorous industry standards.
- ✓ GAF triple excellence award winner in providing installation, training and consumer protection.
- ✓ SRG Roofing executed GAF product installations across the country scoring a 9.91 out of 10 when rated by GAF quality experts. We assure that you will be delivered the highest quality roofing work.
